**Twinsburg, OH – January 27, 2007** – L.J. Star, a leading supplier of process observation equipment, announces the publication of a Process Lighting and Visual Control System Product Catalog. An overview of 50 products in the Lumiglas® line, the six-page catalog covers lights (luminaires), explosion-proof lights, and light and sight glass combinations. It also provides information on unique sight glass fittings and sight glass discs.

Sight glasses provide visual inspection of industrial and pharmaceutical processes, and are often used in conjunction with lights that illuminate tank and pipe interiors.

The new literature describes how pressurized tanks, pipelines, mixers and other sanitary vessels can be brightly illuminated by Lumiglas sanitary luminaires. The units mount directly onto any tri-clamp fitting, providing up to 100 watts of intense light. Their unique design incorporates Metaglas® windows and the compact MetaClamp® sanitary mounting system.

Readers will also find products that maintain visibility in difficult applications. A Combined Light/Sight Port Luminaire provides glare-free internal illumination while a wiper clears product buildup from the inside of the sight glass. It is particularly useful in applications where the process fluid, spray, mist or turbulence would obscure the view through conventional sight glasses or ports.

In addition, the catalog covers obround and rectangular sight glasses which may be welded into a vessel or a pipeline to provide either flow or level indication.

To request a free copy of the Process Lighting and Visual Control System Brief Product Catalog or to talk to an applications engineer about how to improve processes and reduce manufacturing costs, contact L.J. Star at 330-405-3040, send an email to [view@ljstar.com](mailto:view@ljstar.com), or visit <http://www.ljstar.com/pubs/3.htm>.

### **About L.J. Star**

L.J. Star Incorporated provides an extensive line of process observation equipment -- sight glasses, lights, sanitary fittings, and level gage instrumentation. Product lines include Metaglas® Safety Sight Windows, Lumiglas® Explosion Proof Lights and Cameras, Visual Flow Indicators, Sight Ports, Sanitary Clamps, Magnetic Level Gages and Gage Glass. For additional information, contact L.J. Star Incorporated, P.O. Box 1116, Twinsburg, OH 44087. Phone: 330-405-3040. Fax: 330-405-3070. Email: [view@ljstar.com](mailto:view@ljstar.com). Website: [www.ljstar.com](http://www.ljstar.com).
