

L.J. Star Halves Sight Glass Delivery Times over Competitors

Twinsburg, Ohio — June 4, 2009 — L.J. Star Inc., a leading supplier of sight glass products and related equipment, announced that by producing its conventional sight glasses domestically it is able to cut delivery time in half compared with suppliers whose sight glasses are manufactured overseas. And the company's inventory is 50 percent larger than certain select competitors, enabling fast delivery from stock on its borosilicate fused sight glasses.

L.J. Star's standard delivery times for industrial and pharmaceutical sight glasses exceed those of most competitors. L.J. Star relies on domestic manufacturing, inventory strength and superior customer service to ensure fast delivery of sight glasses — in many cases, ship times are within 24 hours from the time the order is placed. For a list of sight glass models for which L.J. Star offers equivalent products, visit: www.ljstar.com/pubs/23.htm.

Further accelerating delivery is L.J. Star's customer service staff, which has an industry-leading command of technical requirements and documentation so that orders are processed quickly and correctly the first time.

L.J. Star's Metaglas® is the No. 1 selling fused sight glass, proven in thousands of installations around the world. Unlike other sight glasses, it meets stringent DIN 7079 and DIN 7080 quality standards, and it is approved for USP Type I use.
